

Portable Welding Fume Filter

SRF T-2

ESTA PLUS

Application Range

- » For the direct extraction at the welding torch
- » Outside work, assembly or construction sites
- » Non-alloy steels and steel with low alloy content

Special Features

- » Powerful suction turbine
- » Integrated compressed air cleaning nozzle
- » Cleanable long life cartridge filters (Dust classification M)
- » Direct extraction of welding torches or nozzles

Your Benefits

- » High performance direct extraction of welding torches or nozzles
- » Portable units that can be used in any location
- » Compact and functional design
- » Low operating costs with cleanable long life cartridge filters

Data dependent on equipment type

Compact welding fumefilter for flexible uses

Compact, portable SRF T models are designed for the connection to welding torches and capture the welding fumes directly at point of origin.

The devices can also be used to extract soldering fumes. No subsequent running costs due to the filter cartridges being cleanable. A dust collection drawer enables simple disposal of gathered material.

The SRF T-2 is designed for one extraction point; the SRF T-4 for two. Ideal for welding fume extraction on building sites, in shipbuilding, small-part welding work stations or in motor vehicle workshops

Technical Data

Welding fume filter model SRF		T-2*
Max. Airflow	m ³ /h	200
Intake diameter	mm	50
Max. negative pressure	Pa	19.000
Voltage	V	230
Motor	kW	1.1
Filter surface	m ²	0,8
Dimensions (L/W/H)	mm	390 × 210 × 500
Weight	kg	15
Sound emission	dB(A)	66
Order Number		55.101

* available in W3-tested Version

Portable Welding Fume Filter *SRF T-2*

Special Versions

- » Exhaust air connection
- » Special voltage
- » IFA Test Certificates W3 (SRF T-2) for high-alloy metals
- » Custom paint finish

Slotted nozzle. Order Number 94.741

Cone shaped nozzle. Order Number 94.740

ESTA Extraction Technology

ESTA extraction technology has provided comprehensive solutions for all application areas for more than 50 years. From single devices for a wide range of application purposes to complex extraction systems – we ensure a clean working environment at all times. This protects machines, benefits your employees' health and lays the groundwork for efficient and quality-oriented working.
